Hq, DA, OCofEngrs, Washington 25, D. C., 24 May 1962

TO: Division Engineer, U. S. Army Engineer Division, North Pacific

1. Approval of the revised final audit assembly forwarded by preceding indorsement is withheld pending re-audit as set forth below.

2. Boeing Seattle Plant No. 12, Washington, was a recognized installation until 18 July 1960. Air Force Logistics Command Special Orders No. G-34, dated 14 April 1961, is considered a reassignment from Boeing Seattle Plant No. 12 to Air Force Plant No. 75. A revised Final Project Map should be submitted for Boeing Seattle Plant No. 12 showing 31.34 acres fee and 2.59 acres, permits, reassigned thus closing this installation.

3. A supplemental audit assembly is required for Air Force Plant No. 75 to show the acquisition by reassignment effective 18 July 1960, pursuant to Air Force Logistics Command Special Orders No. G-34 dated 14 April 1961.

4. With reference to paragraph 3 of the preceding indorsement, the disposal of the permit is correctly shown on the Final Project Map of Boeing Seattle Plant No. 12, approved by our 2nd Indorsement dated 1 March 1962, subject, "Final Audit of Land Records re: Boeing Seattle Plant No. 12, Washington (4150)", inasmuch as it is the termination of a transferred lesser interest rather than a termination of a Use Permit from another Government Agency.
