Wild Rice Standards Study 2013 activities straw proposal.pdf

Hello all,

Sorry I accidentally did not attach the Straw Proposal to this e-mail on Friday. Here it is.

Subject: Background materials for Mid-Project Review Meeting Next Week

Hello all,

We are looking forward to seeing many of you next week. I wanted to send you some additional background information on the Wild Rice Standards Study mid-project review meeting. I am attaching three one-page summaries of current research efforts: hydroponic lab experiments, field research and sediment incubation experiments. We have also prepared a straw proposal indicating outlining proposed priorities for research during the remainder of 2013. Note that this is just a draft proposal and we will be discussing this on the second day of the meeting.

I am also attaching the agenda for the two-day meeting. As a reminder, we will be meeting at Dakota Lodge in Thompson Park, 1200 Stassen Lane, in West St. Paul. Please feel free to call me if you have any questions about logistics. Thanks.

Patricia Engelking
