Jim / Rami,
Gail Franklin, a colleague of mine here in NPDES is focused on issues surrounding WET testing. You may want to add her to the list as she has most of the expertise surrounding WET applications here in R8 related to NPDES permitting.

Subject: Re: ATP process in CO

Rami

Our Region 8 meeting on our Mayfly species sensitivity comparisons for salts and experimental stream hydrofracturing recipe tests will be on Feb 7 Tuesday AM. So per our conversation today we could schedule a 1/2 day meeting to address the WET testing of Methane gas extraction in souther Colorado either Tuesday afternoon some where close to the Regional Office or Wednesday morning.

The folks that may be interested in attending or may know of someone in the Regional Office working on the WET Testing issue related to produced waters from Coal Bed Methane wells are:

Kristen Keteles
Elaine Lai
Tonya Fish
Tina Laidlaw
Sandra Spence

Here is the invitation I received from SETAC to put on a Special Symposium on "Impacts of Resource Mining (oil and gas extraction and Coal Mine Spoil Drainage). So far Will Clements from CSU, Steve Canton of GEI and Chris Nietch from EPA here in Cincinnati have expressed an interest to co-chair this session or help organize it. So if you want to send this to Karen Christinsen to see if she is interested that would be fine. I am trying to get one more chair that has worked with Coal mining drainage impacts.

Hello Jim,

I'm writing on behalf of the **SETAC 2012 Long Beach Special Symposia Committee** to ask if you'd be willing to **Co-Chair a Special Symposium** on **Impacts of Resource Mining**

(hydrofracking, mountain top mining, etc).

Because of your expertise and interest in this area, we'd like to invite you to submit a proposal for a Special Symposium. The proposal for a Special Symposium includes a title (you can elaborate on the one we have suggested), a description of the session, as well as a list of the proposed invited speakers. Special Symposia can be ½ day (8 talks) or full day (16 talks) sessions. We are also open to fewer talks – of longer duration. We would also like to know if you can think of a suitable a co-chair for this session. Deadline for Proposals is Feb 1, 2012.

Information on sessions and guidelines for submissions can be found at:

http://longbeach.setac.org/node/3

We are hopeful that you will consider this request. If you have further questions, please feel free to contact me.

Thanks very much!

Joanne
