Wow -- awesome shot. Who is that dude? The shot of El Jefe wasn't too bad either. I'm struggling to find a way to use one in the report, though. We may have to save it for next year when we can do it justice.

I hate to say this, but we still haven't found the shot we've been using for the cover. It's taken from a little further offshore, with the face of the cliffs more visible. You re-sent P1160095, and I also have 0096.... I wish I knew the right number. All I have is the image on flickr:

If we don't come up with it, I'll make something work with one of the others!
