---

Don and Scott,

Please see attached map (MW8-3_loc). Our recommendation is to locate MW 8-3 on Edanruth Ave just N. of Fairgrove Ave (on east side of street). In my email of May 30th, I provide photos of this area identified previously as Alt. loc #4.

I have also attached your map sent 5 Sep for aerial perspective. Please let us know if you concur with this location by COB Monday and prepare encroachment permits accordingly.

My expectation is to start drilling the week of Sept 30 but no later than the week of Oct 7. Please let me know what I can do to expedite the matter with LA County.

Ray
