15A NCAC 02T .1306 CLOSURE REQUIREMENTS

Any containment basin, such as a lagoon or a waste storage structure, permitted under this Section shall continue to be subject to the conditions and requirements of the facility's permit until closed to NRCS standards and the permit is rescinded by the Division. Closure shall include pre-notification to the Division and submittal of closure forms supplied by the Division or forms approved by the Division as providing the same information as required by the Division's forms within 15 days of completion of closure.
