Importance: High

Hi Lauren, Attached is the write up for New Jersey Zinc. Joan has been tied up most of the day so I am not sure if she will have time to review this. Please let me know if you have any questions. Sorry about the delay. Thanks LM

Hi Linda,

Sorry for the delay in getting back to you. You are welcome to restructure or reorder any of the sections. Just please don't modify the overall format of the issue paper and try to keep it to around a page.

Let me know if you have any other questions.

Thank you,

Lauren Bumba

Subject: DUE 11/28: New Jersey Zinc Issue Paper Review

Hi Linda,

We have been asked to do a quick review of the RA transition issue papers we provided in September to make sure they are still current. Please take a moment to review the attached New Jersey Zinc issue paper that Tim and Jennifer drafted and send me any changes by COB Tuesday, November 28.

Thank you,

Lauren Bumba

Subject: Request: RA Transition Binder Review

Good afternoon,

Our work on the RA transition binder continues to move forward. We shared the draft with both Bob and Cheryl and have received some comments. Attached you will find the by-the-numbers .pdf and below is a link to your division's hot issues. We are asking for one last round of review/edits before we finalize the book.

1) By-the-Numbers: add/delete/make changes to your division content as you see fit, but each by-the-numbers should be no more than two pages.

2) Hot Issues: update if needed and let us know if any items should be removed or added.
   - Ex. 6 - Personal Privacy
   - There needs to be a PFAS/Wolverine Hot Issue paper developed. For those divisions involved, please coordinate on who will take lead on that.

3) In general please review all elements one last time and confirm that our editing process did not distort anything.

Please send your final versions to myself, Jeff, Morgan and Mayra by COB Tuesday, 11/28.

Any questions, please let either Jeff or me know.

Thanks,

Rhiannon Dee
