**********

**EO 12866 Review Day 85**

**********

Danielle,

I am pleased to submit markup and clean copies of both the revised NPRM for the Agricultural Worker Protection Standard Revisions NPRM. The revised NPRM addresses the revisions discussed last Friday, as well as the comments that were provided yesterday and today by interagency reviewers concerning discussion of small farm impacts in the NPRM and the EA. In addition, we have inserted in the revised NPRM a placeholder for a request for comment in anticipation of a comment from an interagency review concerning communication of health effects to workers. EPA appreciates the offer of a relative short call next week and would like to set up a discussion as soon as possible if we otherwise cannot come to immediate agreement on recommended text. EA revisions are forthcoming.
