---

Michael,

It was good to meet you this morning, and thank you for coordinating the briefing.

We have attached the preamble and the regulatory text (NPRM, or Notice of Proposed Rulemaking), the economic assessment (EA), and today's presentation for you to distribute within USDA. We plan to send additional materials next week, in response to the comments and questions we received today.

We would like to meet again to respond to questions or comments after you and your colleagues have reviewed the documents. To make the best use of your time, it would be best for us to have the questions or comments in advance of the next briefing. Please send all comments to me and I will collate and distribute them for responses.

Thank you!

Kathy Davis
