I believe that this version is it.

The AQ control device information has been corrected and I believe that the final legal analysis statement has been coordinated between Kurt and Jonathan.

Sorry, but this is now the 5th or 6th version in 2 days. Before I do my final review and ask Betsy to review, can you, Jeryl and Kurt tell me that this is it? ☺ Thanks!

I promise not to send any more new versions today after this one – this one now includes some reworking throughout the Wind Patterns section and a concluding analytic statement.

Hi,

Jeryl has given me additional clarification for the Wind Patterns segment that are included in the attached version. Please use this one to supersede the one I sent at 1:50PM today.

Hi All,

I am attaching a version with several significant updates made to the Air Pollution Due to Wind Patterns segment (pages 11-12). Note: so you can follow along the version control, this version does not contain ANY other changes outside of that segment to the version I sent yesterday (aside from also changing the date in the header).

Lilian: As you requested, I reorganized and clarified the Tuscaloosa Aquifer section to address your legal analysis concern.

Thanks, Kurt

Hello Folks – here is a sort of clean version of the latest letter. I went through and did not reorganization and rewriting. I am sharing the clean without redline because the redline is unreadable. I also deleted any comments that I thought I addressed. HOWEVER, there are still some comments and I have asks for Jon and Jeryl and one for Kurt in the legal analysis section.

Please read this anew asap as we owe a draft to Kevin for his review so that he can get familiar with this and have an opportunity to ask questions before he shares with others.

Thanks!! Lilian
