Lilian- this is the last thing I have from Jonathan. I'll make the assumption this isn't what you were expecting based on what Brittany just did for the other two cases. I honestly did not grasp what you were asking Jonathan to do, but Jeryl did, at least I think she did. So I am hoping she will help out. I can try to copy Brittany's format for Jonathan's case, if that is what you were expecting.

See attached – updated per conversation w/Lilian on approach re: odor and disease vectors (phrasing may need some re-working). Updated per conversation w/Jeryl on methane and sedimentation overflows.
