Cathie – Yes. Probably later in the week. We should be able to propose some times for a call to discuss this with EPA after we have another internal technical team meeting on Monday or Tuesday.

Joe,

Checking in on this – would Ameren be ready to discuss next week? If so, let me know and I can circulate meeting availability. Also, as an FYI – the City has signed EPA's access agreement (with proposed sampling locations, which EPA needs to get some clarity on) but wants to meet with us prior to EPA conducting the DPT work starting the 17th. So we are planning on meeting with the City tomorrow.

Thanks,
Cathie

Joe,

Thanks for the update. I'll touch base with you after the new year. Happy New Year as well!

Cathie

Hi Cathie - yes, we have started discussing that issue and have asked a consultant for input as to costs and other issues with the design. We should be ready to discuss it with you in early January. Happy New Year.

Have you had a chance to talk to Ameren about the possibility of installing an air stripper in the City's treatment plant as a contingency action? Should we possibly set up a meeting between EPA and Ameren to discuss, once you've had a chance to talk to Ameren?
