We only need the GMP now because not all the information needed to approve the QAPP is in the QAPP. Sounds like some of that info is planned to be in the GMP. If the GMP will not be completed until after the DPT work is done, we need to recraft the QAPP so it has everything we need to approve it. If we need to discuss further, let me know and I will set up a meeting with the QAPP reviewer so we can all be on the same page.

Hi Tonya,

We have a draft of the GMP created, but it has not gone through internal Ameren review yet. The final GMP will hinge somewhat on the DPT investigation near PZ-11 and north of 370. I was under the impression that to move forward with the DPT investigation you needed the QAPP and the DPT monitoring plan (which is also almost finalized). Do you also need the GMP?

Lisa

Lisa, the QAPP references a GMP. Can you send me the GMP that the QAPP is referencing so I can make sure we are looking at the right document while reviewing the QAPP?
