Subject: RE: Another Brine Spill? Article

Thanks for forwarding. Greg had to leave when I was talking to him for a meeting with their EOC – he said it was regarding the Williston spill but I assumed that meant the Yellowstone River issue as they were having Williston sample as a precaution. I'll notify folks here in case they haven't seen this.

Happened north of Williston. Did Greg Wavre mention this at all?

From the article: At the moment, the spill doesn't threaten public drinking water or human health, Glatt said.

North Dakota Pipeline Leaked 3 Million Gallons Of Brine In Oil Drilling

Nearly 3 million gallons of saltwater generated by oil drilling have leaked from a North Dakota pipeline, an official said Wednesday, the largest such spill since the state's current oil boom began and nearly three times worse than previous record sp...
