Hi Josh,

In your last email, you re-stated the agency's position that it does not comment on ongoing enforcement matters. I am coming to you with a slightly different question. In the civil case between residents near the St. Francis plant and the company, the company is seeking documents from the whistleblower, Will Kramer. In his brief supporting a motion to quash, Kramer's attorneys write that there is an ongoing EPA criminal investigation and for that reason, among others, he is not allowed to provide the documents being sought.

Can you provide a comment on the status of EPA's criminal investigation into the CLCM facilities? Is it stil ongoing? Has the matter been referred to the U.S. Attorney's Office here in Milwaukee or main Justice in DC?

Thanks,
John

John,

EPA cannot comment on an ongoing enforcement matter.

Please attribute to U.S. EPA. Thank you.

Hello Francisco and Josh,

Can you check on the latest with CLCM facility in St. Francis and when its RTO is supposed to come on line? I am hearing that might be a hold-up with approvals.

Thanks,
John

Hello Francisco,

It has been a little while and wondered what the latest is on the CLCM/Mid-America plants in Wisconsin. Can you provide an update on the matter. Have there been any fines issued? Has the matter been referred for prosecution?

Thanks,
John

Hello,

Has the EPA issued any fines against CLCM or other enforcement action? If so, how much and from what violations?

Please respond by 10 am CST tomorrow.

Thank you,
John

Josh,
You will find the complete results of our air testing at CLCM St. Francis here: http://rhprisk.com/wp-content/uploads/mjs_data.
Can you check to see if there are any new developments on the enforcement actions regarding CLCM?

Thanks,
John
