Not quite, Seaman paper has an active MSGP permit (MAR053297) but it also has some other businesses that are owned by Seaman paper that it has filed NOEs for. That is all that I am seeing for Gardner, MA in ICIS under the MSGP.

Okay so you also aren't seeing anything in Gardner? Except that one place that said no exposure?

There are so many databases out there that its really challenging to know which one is the best to use. Guess I stick with ICIS as I have some basic understanding of what data it includes and how to search. Not all that familiar with the e-enterprise, Im sure its also pulling from ICIS, guess the results you got are similar to what I was able to see through ICIS, so its another way to search.

Hey Neil. When I tried to look up using e-enterprise to see if there were any facilities with the msgp permit in Gardner I couldn't find any

Stephanie,

I looked quickly in ECHO. There are 15 facilities in Gardner, but I couldn't tell if any of them were for MSGP coverage. Can you look at them and see if you can figure it out.

Neil may be able to help you with that. Neil, is there a way of quickly seeing if any of the facilities in Gardner are MSGP facilities?

Thanks,

Hi Dave,
Actually one more question. Still trying to sort this out:

This was the Gardner DPW director's actual response to Stephanie about whether they accept industrial waste:

> Stephanie,
> We have industrial, commercial, residential, and municipal all tied into our sewer system as any City would.
> We do not receive septage from outside the City.
>
> **Thank you,**
> **Dane E. Arnold, Director**
> **Department of Public Works**
