If you send the papers in batches, we can have them today. Let's try
that approach.

John E. Whalan
Toxicologist, ORD - NCEA - IRIS
Phone: 703-347-8639 FAX: 703-347-8689

I have the papers, just finished checking them in. I can Fed Ex them on CD-rom for arrival tomorrow, or I can email them today in batches--let me know which you prefer.
Thanks,
Sheri

Subject: Formaldehyde paper

I have a request from someone on the formaldehyde team for the following article. Could you please send it to me?

Ozen, OA; Kus, MA; Kus, I; et al. (2008) Protective effects of melatonin against formaldehyde-induced oxidative damage and apoptosis in rat testes: an immunohistochemical and biochemical study. Syst Biol Reprod Med 54(4-5):169-176.

When do you anticipate sending papers from the latest literature search?
