---

here are a few more comments, but I don't have the time to review in depth--looks better overall.

Yes, comments by Tuesday noon if at all possible, which will allow some time for final revisions so we can get this out to participants by COB next Wednesday.

Tom - Here is a cleaned up draft and appendix to forward. We'd like comments by noon on Tuesday (9/7).

Thanks Mary,

Do you have a clean copy that I can distribute to NCEA managers for
comments?

Since I heard on the last call that the plan was to send this out to the
participants next week, by what date would you need to receive my
management's comments by in order to give yourselves time to look at
them?

Thanks,
Tom

Subject: Revised materials - Epi consistency workshop

Revisions based on our discussion last week and Glinda's and Ron's work
since then. There are a handful of loose ends to clean up (see
comments) but the documents are much more manageable. I have attached
two versions of the main text - one with track changes and one with
comments only (changes accepted). I wanted to get this out so the
appendix does not have all divider pages, etc.

Another change Ron and I made was to put all the topics and questions up
front after the introduction. The idea was to let participants see the
full scope of the workshop without being forced to page through all the

background material.
