Notes:

1. All samples collected by IWM Consulting personnel and analyzed at Pace Analytical Services, LLC located in Indianapolis, IN.
2. All VOCs analyzed using EPA SW-846 Method 8260.
3. All results in µg/L.
4. N/A: not applicable (risk-based screening levels have not been developed).
5. IWM Consulting personnel obtained all of the groundwater samples via low-flow groundwater sampling techniques.
6. J values indicate an estimated concentration above the adjusted laboratory method detection limit and below the adjusted laboratory reporting limit.
7. Bolded concentrations exceed the EPA MCLs.
