Subject: CONFIDENTIAL

Hi –

1) Bhooma and I went over the results and the response plan we discussed yesterday. All good to talk with property owner and resident about results and response plan
2) For EPA review, please prepare a draft letter to owner/resident describing the mit system, ok to describe as a pre-emptive approach based on S-S results
3) Good to go also with contacting additional homeowners for access. I didn't mean to be ambiguous about that.
4) Sewer WP not yet approved. Bhooma is looking it over today. I talked with Brad about my concerns this morning. I expect to prepare conditional approval later today.

Carolyn

Carolyn - I didn't get the feel that you were ready for us to contact the property owner and resident at [redacted] or start talking to the other 8 locations about access. Before I turn Brad's team lose (and they are ready to go today) I wanted to confirm that we're good to talk to these folks. At least, could we start contacting the 8 locations about access even if you wanted to hold off on [redacted] for now? Thanks.

Also, looking to be going into sewer manholes today if we have your okay. If we want to sample this week, we have to start the process today. Thank you.
