SUMMARY OF COMMUNICATION

I called to give my comments on the rough draft of the final report which will summarize the panels comments on the draft report.

The items which were to have been altered were:

1. Hazardous Waste language - changed to be more objective.
2. River Flow Flood figures - Source cited.
3. Life Expectancy - limited to existing landfill boundaries.
4. Ground Water Environment - changed to reflect MAG 208 comments
5. Boundaries of Reservation - Approximate boundaries changed on map.
6. Ground Water Monitoring Plan - MAG 208 will send to SCS who will include in recommendations.
7. Methane Sampling Well placement and design - Appendix added.
8. Qualitative Statement on Operation - Included in the conclusions.
9. The panel requested 50 copies of the report. Ross will check with Lynn Wallace, IHS re distribution.
