4/4/16

Scrap Metal Recycler - Portland Recycling
Sent oil to ORRCO
ORRCO found PCBs, traced it to this recycler and tank
Used generator knowledge
it's a Vehicle processing station at this tank
State on scrap acceptance policy only auto oil is accepted
Will now begin testing
Aroclor 1242
Don't accept free liquid oil anyway
Anyone can bring in the scrap
Volume of tank ~800 gallon
Three different lab reports, Some ND, some w/ PCBs
ORRCO disposed of the oil, didn't recycle
