---

Brad,

Attached please find EPA's review comments on *Evaluation of Baseline Groundwater Quality Data, Puente Valley Operable Unit, Shallow Zone North of Puente Creek*, prepared by Tetra Tech on behalf of United Technologies Corporation (UTC) and dated August 21, 2014. This Technical Memorandum is a revision to the June 13, 2014 submission and does not, in part, satisfy EPA's comments provided on July 25, 2014. EPA is therefore, disapproving in part this submission.

EPA notes once again that an "assessment of the depth of the PVOU Shallow Zone" was not an objective of the baseline sampling program and EPA expected this discussion to be deleted in this revised technical memorandum.

UTC shall revise the Baseline Groundwater Quality Data Technical Memorandum and submit to EPA by no later September 22, 2014.

Ray
