RE: Installation of Monitoring Wells - Quemetco, Inc., City of Industry, CA

Dear Sirs:

This letter is to provide advance notification of the installation of Monitoring Wells 12-15 at the Quemetco facility. The consultant, ESC, and well drillers will be on-site beginning Monday, August 9, 1993, until completion of the well installations, expected to take about one week.

In order to expedite activities at the plant and to ensure that your departments can provide any necessary input or oversight, please contact me at your earliest convenience to discuss when you or your representatives will be on site. Present plans call for the drillers to undergo several hours of plant specific training Monday morning before the initiation of drilling activities.

If you have any questions, do not hesitate to contact me at (214) 631-6070.

Sincerely,

Stephen K. Reynolds
