Due to the heat, they are just going to prep tomorrow. They hope to start injections on Thursday morning.

I have not been given the go ahead on the Geoprobe. I have resubmitted the MODOT permit application as the other permit expires on 7/11/2022. I asked for the permit to be valid for one year. So far, I have heard nothing.

Hi Tonya and Barbara,
Is the Bioagumentation proceeding as planned tomorrow? Any updates with the Geoprobe?
Feyi

Subject: Bio augmentation at Ameren Huster Sub

Tonya and Feyi

This is to inform you that the approved bioaugmentation for Huster substation will start next Wednesday, July 6th. It should take a week to 10 days to slowly add all the nutrients and "bio bugs" into the various locations.

Let me know if you have any questions or want to be present.
