David,

I made the following changes in response to Maui's comments. I'll send our responses to Dave Taylor if you concur. Next, I'm checking with HDOH for any comment, and then I'll talk to you about the steps to public notice it. Nancy

1. Comment: Title sheet. Our department is now the "Department of Environmental Management." This was a recent change.

I made the change.

2. Comment: Part 1. Authorization to Operate. Our department is now the "Department of Environmental Management." This was a recent change.

I made the change.

3. Comment: II.C.4.f: The words "to correct the exceedance" should be removed. The reports are not, technically, correcting anything. They are explaining why it happened and what will be done.

Ok. I removed the words "to correct the exceedance".

4. Comment: II.C.4.f.i & II.C.4.f.ii: It should be specified that these explanations are due with the quarterly report.

I added the reports into the quarterly report condition as II. D. 9. e. any reports specified in permit condition Part II, Section C, Items 4.f.i. and 4.f.ii.

5. Comment: III.E.11.b: The reference to "5 United States code ..." seems to be missing a symbol before the "5"

I inserted Title before the "5".

6. We have noticed that the proposed permit number is significantly different than the old permit number. Whether this is intentional is unknown.

Proposed permit number is accurate. We have a new permit numbering system.

Subject Comments to Permit Draft

Hi Nancy,

Sorry for taking so long. We have reviewed the draft permit and offer the following comments:

1. Title sheet. Our department is now the "Department of Environmental Management." This was a recent change.

2. Part 1. Authorization to Operate. Our department is now the "Department of Environmental Management." This was a recent change.

3. II.C.4.f: The words "to correct the exceedance" should be removed. The reports are not, technically, correcting anything. They are explaining why it happened and what will be done.

4. II.C.4.f.i & II.C.4.f.ii: It should be specified that these explanations are due with the quarterly report.

5. III.E.11.b: The reference to "5 United States code ..." seems to be missing a symbol before the "5"

6. We have noticed that the proposed permit number is significantly different than the old permit number. Whether this is intentional is unknown.

That concludes our comments.

Thanks for the opportunity to provide these comments.

Dave
