Good morning Katia,

Unfortunately, I have one additional favor to ask, would it be possible to get a copy of the FCE for Georgia Pacific Paper Operations? AFIN 02-00013 and Permit Number 0597-AOP-R14.

From the screen capture below, looking at the Detailed Facility Report, the current compliance status shows no violation. However for one of the Facilities tied to the FRS, the Paper Operations (AFS 0500300013), it appears that there are violations.

Statute	Insp (5 Years)	Date of Last Inspection	Current Compliance Status	Qtrs in NC (of 12)	Qtrs in Significant Violation	Informal Enforcement Actions (5 years)	Formal Enforcement Actions (5 years)	Penalties from Formal Actions (5 years)	EPA Cases (5 years)	Penalties from EPA Cases (5 years)
CAA	5	08/12/2013	No Violation	7	1	1	1	$21,525	1	$18,000
CWA	12	10/10/2012	Noncompliance	2	0	--	--	--	--	--

It looks like NSPS KB, IIII, BB, D; MACT ZZZZ, MM,S; Title V violations, reported by the state.

What is confusing to me is that I'm not sure that these are the violations referenced in the inspection summary (attached).

So I have been asked to do two things (the second is the new request).

1. Try to find out if the facility is monitoring and keeping records as required. From the inspection summary, it appears that most of the recordkeeping is being done at the facility, with the exception of fuel records for boilers 9A and 10A. Since we couldn't find any copies of reporting of monitoring in our Regional office, we wanted to check if they are being submitted to the state (our phone conversation yesterday). Please email what you can.
2. Try to find details regarding the NSPS and MACT violations. That is the reason for requesting the FCE, or any other enforcement info that you might have to inform my management about the violations.

Again, I hate to keep asking for favors, but any help or clarification you can provide is greatly appreciated. Please give me a call at (972) 215-6674 if you have any questions. Thanks!!
