Adrian,

If OPP has looked and cannot find documentation for the 2002 or 2013 date in OPPIN, then we can contact the basic registrant to request documentation. I would be happy to assist with this if needed.

Thank you,
Kim

Thanks for the reply; however, even if you personally don't know, the question of who and why made this change in OPPIN still remains. At any event, we need a copy of the June 5, 2002 cancellation order. Additionally, the June 19, 2013 cancellation of this allegedly alternate brand name was presumably entered in OPPIN based upon a request – we need a copy of this request too. Thanks.

I don't know. But in OPPIN there is a note by the Inactive-Rejected item on June 19, 2013. I am no expert but, it looks like the June 19th entry was the cancelation of one of the alternate brand names (Elimstaph RTU).

Good morning,

We have scheduled an inspection at Walter Legge Inc. for next week; thus, before we do the inspection, we really need the clarification concerning the change in the cancellation date for the Leggicide HB Plus", EPA Reg. No. 1839-83-2212 product from June 5, 2002 to June 19, 2013. Please help us with this. Thanks.

Adrian

Subject: RE: Documents - cancellation orders

39229-1 - After checking OPPIN for the Reason that 39229-1 was cancelled in Oct of 1989 and the Reason was "Maint. Fee Non-Payment". Attached please find the cancellation order for 39229-1.

1448-212-66556 – Attached please find the company request to cancel 1448-212-66556 obtained from the paper jacket and now in Documentum.

1839-83-2212 – Still not sure why the Status in OPPIN changed on 19 June 2013 from "Inactive – Cancelled" to "Inactive – Cancelled".

Subject: Documents - cancellation orders

Thank you both for the information provided during to today's conference call; as per our discussion, we need clarification and also documentation for the following:

- Walter Legge Inc., NY, product = "Leggicide HB Plus", EPA Reg. No. 1839-83-2212. Back in September 2012 the registration status for this product in OPPIN was "cancelled on Jun5, 2002". Hence, OECA requested our office to investigate. Since then, we got a bunch of OPPIN screens printed at various times. Consequently, on June 14, 2013 we sent an email to several PMs in AD and RD asking for copies of the cancellation orders for several products including the one above. Yet, not only that we didn't get anything for this product, but in July when checking again OPPIN, we found that now the product shows cancelled as of "June 19, 2013"!!! It certainly begs the questions as to what happened here; and again, we need documentation.

- W.R. Newman Co. dba Miracle Chemical Co., NJ, product "Nacloh", EPA Reg. No. 39229-1, cancelled Oct. 10, 1989. We could not find the cancellation order in the e-jacket.

- Indco Inc., NJ, product GCS Biosak 604", EPA Reg. No. 1448-212-66556, cancelled August 27, 2010. We could not find the cancellation order in the e-jacket.

Thanks a lot.

Thanks for the reply; however, even if you personally don't know, the question of who and why made this change in OPPIN still remains. At any event, we need a copy of the June 5, 2002 cancellation order. Additionally, the June 19, 2013 cancellation of this allegedly alternate brand name was presumably entered in OPPIN based upon a request – we need a copy of this request too. Thanks.

I don't know. But in OPPIN there is a note by the Inactive-Rejected item on June 19, 2013. I am no expert but, it looks like the June 19th entry was the cancelation of one of the alternate brand names (Elimstaph RTU).

Good morning,

We have scheduled an inspection at Walter Legge Inc. for next week; thus, before we do the inspection, we really need the clarification concerning the change in the cancellation date for the Leggicide HB Plus", EPA Reg. No. 1839-83-2212 product from June 5, 2002 to June 19, 2013. Please help us with this. Thanks.

Adrian

39229-1 - After checking OPPIN for the Reason that 39229-1 was cancelled in Oct of 1989 and the Reason was "Maint. Fee Non-Payment". Attached please find the cancellation order for 39229-1.

1448-212-66556 – Attached please find the company request to cancel 1448-212-66556 obtained from the paper jacket and now in Documentum.

1839-83-2212 – Still not sure why the Status in OPPIN changed on 19 June 2013 from "Inactive – Cancelled" to "Inactive – Cancelled".

Thank you both for the information provided during to today's conference call; as per our discussion, we need clarification and also documentation for the following:

- Walter Legge Inc., NY, product = "Leggicide HB Plus", EPA Reg. No. 1839-83-2212. Back in September 2012 the registration status for this product in OPPIN was "cancelled on Jun5, 2002". Hence, OECA requested our office to investigate. Since then, we got a bunch of OPPIN screens printed at various times. Consequently, on June 14, 2013 we sent an email to several PMs in AD and RD asking for copies of the cancellation orders for several products including the one above. Yet, not only that we didn't get anything for this product, but in July when checking again OPPIN, we found that now the product shows cancelled as of "June 19, 2013"!!! It certainly begs the questions as to what happened here; and again, we need documentation.

- W.R. Newman Co. dba Miracle Chemical Co., NJ, product "Nacloh", EPA Reg. No. 39229-1, cancelled Oct. 10, 1989. We could not find the cancellation order in the e-jacket.

- Indco Inc., NJ, product GCS Biosak 604", EPA Reg. No. 1448-212-66556, cancelled August 27, 2010. We could not find the cancellation order in the e-jacket.

Thanks a lot.

Adrian

Subject: RE: Documents - cancellation orders

39229-1 - After checking OPPIN for the Reason that 39229-1 was cancelled in Oct of 1989 and the Reason was "Maint. Fee Non-Payment". Attached please find the cancellation order for 39229-1.

1448-212-66556 – Attached please find the company request to cancel 1448-212-66556 obtained from the paper jacket and now in Documentum.

1839-83-2212 – Still not sure why the Status in OPPIN changed on 19 June 2013 from "Inactive – Cancelled" to "Inactive – Cancelled".

Subject: Documents - cancellation orders

Thank you both for the information provided during to today's conference call; as per our discussion, we need clarification and also documentation for the following:

- Walter Legge Inc., NY, product = "Leggicide HB Plus", EPA Reg. No. 1839-83-2212. Back in September 2012 the registration status for this product in OPPIN was "cancelled on Jun5, 2002". Hence, OECA requested our office to investigate. Since then, we got a bunch of OPPIN screens printed at various times. Consequently, on June 14, 2013 we sent an email to several PMs in AD and RD asking for copies of the cancellation orders for several products including the one above. Yet, not only that we didn't get anything for this product, but in July when checking again OPPIN, we found that now the product shows cancelled as of "June 19, 2013"!!! It certainly begs the questions as to what happened here; and again, we need documentation.

- W.R. Newman Co. dba Miracle Chemical Co., NJ, product "Nacloh", EPA Reg. No. 39229-1, cancelled Oct. 10, 1989. We could not find the cancellation order in the e-jacket.

- Indco Inc., NJ, product GCS Biosak 604", EPA Reg. No. 1448-212-66556, cancelled August 27, 2010. We could not find the cancellation order in the e-jacket.

Thanks a lot.

Adrian

Lou,

Just checking to see if you might know what happen to 1839-83-2212 on June 19, 2013 to change the OPPIN status from "Inactive – Cancelled" (since June 5, 2002) to "Inactive – Rejected"? I don't remember any transfer activities for this product (1839-83) or company (1839).

Thanks,
Steve

Subject: Clarification needed

Good morning Steve,

We need clarification concerning the "Leggicide HB Plus" product, EPA Reg. No. 1839-83-2212; the supplemental registrant (was) is Walter Legge Inc. Until not too long ago, OPPIN indicated that this supplemental registration was cancelled on June 5, 2002. The company continued to produce and sell/distribute this cancelled product ever since as reported to us via the annual production reports. As you know, in June we asked many PMs and others in OPP to help us getting copies of many cancellation orders, including the above one. However, if you access OPPIN today, the product shows as cancelled as of July 19, 2013. I would certainly appreciate some clarification on this issue, and of course, also we need the documentation concerning the July 19, 2013 cancellation order. Thanks a lot.

Regards,

Adrian
