RE: Label Change for Special Local Need Registrations (SLN), #ID-900006 & ID-900009, Capture® 2EC, EPA Reg. No. 279-3069, on Alfalfa, Clover and Carrot Grown for Seed in Idaho
SLN Registrant: FMC Corporation, EPA Company #279

Dear Sir:

Enclosed are copies of the revised labels for the Idaho Special Local Need (SLN) registrations, #ID-900006 & ID-900009, Capture® 2EC, EPA Reg. No. 279-3069, for the control of listed insects in alfalfa, clover and carrot grown for seed in Idaho. Enclosed are copies of the SLN labels (marked "OLD") that are being replaced by the revised labels.

The revisions to this SLN label involve the addition of an additional direction to "Follow the spray drift precautions on the EPA-registered label. These changes were made at the request of George LaRocca, PM 13 (enclosed is a copy of the letter). If you have any questions or need additional information regarding the information in this letter, please contact me at 208-332-8593.

Sincerely,

George Robinson

Capture® 2EC
Insecticide-Miticide

For Agricultural or Commercial Use Only

EPA REG. No. 279-3069

EMERGENCY CALLS: 800-331-3148

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

CROP	PEST	RATE OF APPLICATION
Seed Alfalfa Seed Clover	Lygus Bugs Weevils Aphids Spider Mites	3.9 to 6.4 ounces per acre

DIRECTIONS FOR USE:

To control Lygus Bugs, Weevils, Aphids and Spider Mites, apply Capture 2EC at the rate of 3.9 to 6.4 ounces (0.06 to 0.1 lb. active) per acre. Apply in a minimum of 5 gallons of water per acre by air equipment and a minimum of 20 gallons of water by ground equipment.

Make aerial or ground applications when the wind velocity favors on target product disposition (approximately 3 to 7 MPH). Do not apply when wind velocity exceeds 7 MPH.

For aerial applications, the spray boom should be mounted on the aircraft so as to minimize drift caused by wingtip or rotor vortices. Boom length must not exceed 75% of wing span or rotor diameter.

Do not apply by ground equipment within 25 feet, or by air within 75 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries, and commercial fish farm ponds.

Do not apply more than 6.4 ounces (0.1 lb active) per acre per treatment. Do not make more than 3 applications in a crop year. Maintain a minimum of 21 days between Capture 2EC treatments.

Follow the spray drift precautions on the EPA registered label.

(Continued next page)

RESTRICTIONS:

Do not apply more than 19.2 ounces (0.3 lb. active) per acre per season.

Do not apply Capture 2EC or allow it to drift to blooming crops or weeds while bees are actively foraging in the treatment area.

Do not cut current year's treated Alfalfa Seed or Clover Seed crop for hay or forage.

Do not graze current year's treated Alfalfa Seed or Clover Seed crop.

Treated Alfalfa Seed or Clover Seed is not to be used for sprouting.

All Alfalfa Seed or Clover seed treated with Capture 2EC is to be tagged at the conditioning plant, "Not for human or animal consumption". It shall be the grower's responsibility to notify the conditioning plant of any Alfalfa Seed or Clover Seed crop treated with Capture 2EC.

Screenings and seed from seed conditioning are prohibited from feed channels. All Capture 2EC treated Alfalfa Seed or Clover Seed screenings must be removed from the feed market.

Refer to the EPA registered label for information on chemigation.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA REGISTERED LABEL ARE TO BE FOLLOWED.

PERSONAL PROTECTIVE EQUIPMENT AND REENTRY INTERVALS ON THIS 24C OR ON THE BASIC LABEL MUST BE FOLLOWED.

THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.

Dear Mr. Palmquist:

We have checked our files for each of the thirty-two additional SLNs you listed in an addendum to your 1998 maintenance fee response (copy attached). The results of that process are described below.

You wrote in SLN registration number GA-94-0010 (Tilt Fungicide). Our records indicate that Novartis Crop Protection, Inc. is the registrant of this SLN. They have already indicated their support of this registration in their 1998 maintenance fee response.

Five of the other SLNs are listed in our records as cancelled registrations. They are:

AL-83-0011 Pounce 3.2 EC
MT-84-0009 Furadan CR-10
ND-90-0003 Capture 2 EC
OH-91-0005 Command 4 EC
VA-90-0002 Command 4 EC

Twenty-two more of your write-in SLNs do not exist in our registration files. Any documentation you could provide for these registrations would be appreciated.

Re: Confirmation of Active Status of 24(c) Labels

Dear Mr. Jamula:

Today, I was requested by FMC Corporation to provide information regarding the status of 5 Special Local Need (SLN) labels in Idaho. Those 5 SLN labels are:

ID-910007	Furadan 4f on Potatoes
ID-870013	Thiodan 3EC on Conifers
ID-890009	Thiodan 3EC on Potatoes
ID-900006	Capture 2EC on Seed Alfalfa & Clover
ID-900009	Capture 2EC on Carrot Seed

All of the listed SLNs are currently active in Idaho. Enclosed are copies of the most current labels, copies of the Applications for Notification of State Registration of a Pesticide to Meet a Special Local Need for each of the listed registrations and a copy of the letter of request from FMC. If you need additional information or if I can be of further assistance, call me at (208) 332-8593, or E-mail me at grobinso@agri.state.id.us.

Sincerely,

George Robinson

Dear George:

Re: Active 24(c) Labels

In our notification and payment of fees with the USEPA, FMC Corporation lists active 24(c) labels. At times, the USEPA either lists labels as active which have been canceled or has not received notification from the State lead agency that 24(c) labels were issued.

Five 24(c) labels that FMC Corporation has listed as active in Idaho are not in the USEPA active registration files. The USEPA is asking for documentation from the states demonstrating that these labels are in effect. Could you please confirm with the USEPA that the labels listed below and enclosed are active. We were contacted by **John Jamula, Information Services Branch, Office of Pesticide Programs, USEPA, Washington, D.C., 20460**. Please copy me on your correspondence. If you need additional information, please contact me.

Sincerely,

Dan M Hopper
