Subject: North Basin "point"

Hi Rachelle. We propose using the location of OCWD monitoring well FM-10A for the North Basin "point." It is roughly near the center of the areas with the highest VOC concentrations. It is also in the City of Fullerton. Most of the VOC contamination is in Fullerton. So, that seemed logical.

Approximate address: 1012 East Elm Ave., Fullerton 92831 (note: there is no building with that street address)

The monitoring well is in the street, 30ft south of centerline of Elm Ave., 171 ft west of centerline of Ash Ave.

Geographic Coordinates: Latitude 33.8639726, Longitude: -117.91049451

State Plane Coordinates (NAD27, Zone 6): 6057594.390922 072262015.97890371

Let me know if you have any questions. Have a great weekend.

-Dave
