If possible, I would like to have the broad contours of any RCRA program concerns with FMC's RD and RAWP submittal in mind before discussing their proposed RA schedule next Monday.

Also, there will be an internal (EPA, IDEQ, Sho-Ban Tribe) teleconference (scheduled every two weeks) tomorrow 9-10 am. Do you want to participate? Are there any RCRA program "heads-up" that you think I should provide to that group?

Suggest a time on Monday 7/28. I'm generally open.

Hopefully that will give you a few days to try to look at calendars and we can finalize dates for August.

The submittals arrived mid-morning today. The package appears to be complete. I provided a copy to BAH at 1 pm PDT this afternoon, and EPA's RCRA program a few minutes ago.

I'm scheduled to be in the office the rest of this week and all of next week. I don't have that many meetings scheduled yet. My preference to talk would be sometime next Monday-Wednesday as I might have more info to offer by then. But this week would be OK too. Let me know what dates/times are best for you.

See attached. Please confirm receipt and provide any comments on schedule ASAP. What's your availability to speak by phone in the next week to 10 days?

Will Paul DesFosses and Cliff Merrill with CooperCM continue to be our oversight guys? Assume you'll provide them planned schedule.
