Randy,
Need to confirm with you all what materials are anticipated for this meeting?

So, just to be clear, Consol would need plans for the mine only option and plans for the current road alignment (no flat area)? If so, we can send that on Monday. If they would like anything else, please let us know and we will do our best to get that to you.

Liz

John/Garrie/Liz - Would Monday work for you to send advance information to Consol or will you need more time? Please advise. Thankx.

John,
One more request from the Region for materials in advance of the meeting--or webinar depending on the weather. Does Monday sound reasonable to you?

Tim,

Consol would like advance materials from Morgan. Are you OK with that? If so I think John should electronically send the materials to us Monday so that we can share them with Shawn then send them to Consol.

John (Dorney),
I received your email this morning re: documentation for MW participation. I don't believe we would need anything further as far as that is concerned. However, I did want to forward you the below message which indicates logistics may be changing for next week. We'll continue to keep you updated...

Ed,

I have two concerns about travel for the meeting next week. First, I've spoken to the folks here that are key attendees at the meeting. Charleston for us is a 3 day commitment. Flights from here aren't very accommodating. Would Washington DC be better then Pittsburgh?

The second, and perhaps the greater concern is that the Philadelphia area is under a severe weather alert for next week. We have been asked to be very cautious about travel next week. Depending upon the severity of the weather our operational status may dictate no travel, very restricted travel, and/or a limited choice of available air services.

I think we should come up with a plan B. I suggest that we send you materials to review and perhaps gear up for a video session in case the face to face is trumped by the weather.

Randy,
Since I am in VA and my other guys are in the Charleston, WV area, I would really prefer to meet in Charleston if possible. We have an office adjacent to the airport in the FAAs building. The address is: CNX Land Resources, Inc.
301 Eagle Mountain Road
Suite 251
Charleston, WV. 25311

Please check and let me know if this will work. The meeting can be set for any time.

Also, I would like to get a copy of the plans as soon as possible to review prior to the meeting.

Thanks,
Ed

Subject: Meeting Next Week

Ed,

It looks like all of the Administrative issues will be resolved on this end. Please let us know a time and specific place in or near Pittsburgh for next Thursday (assuming that's still ok with you). We may want a little wiggle room on time of day to accommodate flights.

Thanks
