To Interested Parties:

This is a duplicate message. The initial one was too large and undeliverable to the many of the intended recipients. Sorry for the inconvenience.

Summary: To offset the loss of agricultural water due to the extended drought, the Pleasant Valley County Water District (PVWD) and the City of Oxnard has requested that recycled water produced by the Advanced Water Purification Facility be delivered to the PVWD irrigation distribution system beginning in August 2015. The pipeline to transport the treated water from the Advanced Water Purification Facility to the Pleasant Valley County Water District's irrigation distribution system has not yet been constructed. The City of Oxnard along with representatives from the PVWD have received approval from Calleguas Municipal Water District to utilize the Regional Salinity Management Pipeline (RSMP) temporarily to transport the high quality water to the PVWD irrigation distribution system. The proposed amendment includes a description of the activity and stipulates that discharges from the RSMP to the PVWD's irrigation distribution system will be permitted in separate waste discharge requirements. The amendment as proposed does not alter any effluent limits, the permitted flow, or the monitoring requirements.

In accordance with administrative procedures, this Board at a public hearing to be held **on July 9, 2015, at 9 a.m., at Metropolitan Water District of Southern California Board Room**, 700 North Alameda Street, Los Angeles, California, will consider the tentative requirements and comments submitted in writing regarding any and all portions thereof. Written comments are due at the close of business on or before June 26, 2015. The comments should be submitted to the Regional Board at losangeles@waterboards.ca.gov with a copy to JauRen.Chen@waterboards.ca.gov.

The attached documents (The Cover Letter, Public Notice, and the Tentative Amendment to the WDRs) are posted on our web site at: http://www.waterboards.ca.gov/losangeles/board_decisions/tentative_orders/. They are in Adobe Acrobat PDF format. You can obtain an Acrobat Reader free of charge at http://www.adobe.com/products/acrobat/readstep2.html. If you are no longer interested in receiving correspondence regarding the subject facility, please kindly reply to this email and we'll

remove you from the cc list.

Thank you,

Cassandra D. Owens, Unit Chief
Industrial Permitting
