Re: Former Pechiney Cast Plate, Inc. Facility; Vernon, California

Dear Mr. Scott:

We recently received a copy of the conditional approval letter, dated July 2, 2010, issued by your agency for a Polychorinated Biphenyl Notification Plan regarding the subject facility. As the local environmental health agency which acts as the Certified Unified Program Agency for hazardous waste compliance in the City of Vernon, I would like to request to be added to the distribution list of future documents issued by your agency relating to the subject facility. The timely receipt of these documents is important so that we can be aware of hazardous waste decisions and communicate information on the status of remediation plans and activities to the Vernon City Council and other interested parties, including environmental justice groups.

Thank you for your attention and assistance.

Sincerely,

Lewis J. Pozzebon
Director / Health Officer
