RE: NPDES Application No. NM0029602 – Rio Rancho WWTP #3

Dear Mr. Sensanbaugher:

We have reviewed your March 23, 2021, letter requesting to terminate your National Pollutant Discharge Elimination System (NPDES) permit. You are hereby notified that your NPDES permit for the above referenced facility has been discontinued and is now void.

Any resumption of the discharge or any new discharge from your facility without a permit will be unlawful. Should you again propose to discharge any pollutants from this facility to waters of the United States, it will be necessary to file a new NPDES permit application at least 180 days in advance of the proposed discharge.

If you have any questions, please do not hesitate to contact Tung Nguyen at email: nguyen.tung@epa.gov or telephone (214) 665-7153.

Sincerely,

Maria L. Martinez

Maria L. Martinez
