MAY Huskon's Mining Permits

While looking in my storeroom for Cameron data, I found a large map (42" x 7') of MPs and Drilling Permits I got from the Navajo Tribal Mining Dept in the late 1950's

The following sheets show the location of the Morton Johnson #4 and May Huskon 1-7 as tied to Highway Mileposts. The May Huskon MPs are in the same area as the Earl Huskon MPs and Paul Huskie MPs

I will send you this big map as soon as I find a long tube (after my surgery this PM)

Bill
