**Subject**: CBI - R06-LA-0012 - Capio Administrative Completeness NOD
**Attachments**: CBI-R06-LA-0012 Admin Completeness NOD Letter - FINAL sc signed.pdf; CBI-R06-LA-0012_Information_Request_#A-1_FINAL.docx

Mr. Hollis –

EPA Region 6 has reviewed Capio's application submittal for a Class VI injection well in Louisiana and, unfortunately, cannot deem the application administratively complete at this time. Two documents are attached to this email and have also been uploaded (redacted) to Information Request #1 in the GSDT. The first is an official NOD letter indicating that the application cannot be deemed complete, while the second is a detailed listing of the missing and/or incomplete application elements. Once the missing/incomplete elements have been addressed, EPA can continue its administrative completeness review of the application.

If you have any questions or concerns after reviewing the attached documents, please feel free to reach out. Region 6 is happy to answer whatever questions you may have or to set up a meeting to discuss the missing/incomplete elements and steps forward.

Thank you,
Brandon
