
500 250 0 500 Feet

Legend

Monitoring Well Screening Interval

- Metasediment
- Saprolite/Overburden
- Diabase
- Estimated Groundwater Equipotential (feet mean sea level)
- Groundwater Equipotential (feet mean sea level)

Site Features

- Site Boundary
- Paved Road
- Unpaved Road
- Pavement
- Parking
- Railroad Track
- Tank
- Building
- Former Building
- Berm
- Historic Burn Area /TTU
- Perennial Surface Water
- Ephemeral Surface Water
- Wetland
- Pond

Well with Measurable Water Level:

BW 10-03S — Well Name
295.12 — Groundwater Elevation

Notes

Groundwater elevation data measured during the period of 15 September to 18 September 2008.

Estimated contours were developed through consideration of ground surface topography and available water elevation data.

Vertical Datum is NAD 83.

NG - Not gauged in September 2008.

Site-wide Groundwater Elevations and Potentiometric Surface in Shallow Aquifer

Atlantic Research Corporation, Gainesville, Virginia
