Thought you'd find these interesting. Do you have any info on the 2000 action for stormwater violations? (I wonder if that was before or after they were given the award)?

at least it wasn't EPA that gave them the award

would love to know what this 2000 case was all about-particularly if it involved the pond. If you talk to Michelle Price-Fay, could you ask her if anyone in her group could track that down.

I didn't remember until I found an old list of PRPs at my Jack's Creek Superfund site that Super Salvage was involved in those settlements that Pam Lazos and I did a very long time ago.
