Hi Karen and Jorianne,
I've added an additional table to Karen's document that outlines the known WIFIA status and a summary of the env reviews completed to date and any other federal agency involvement. Let me know if there is any other info that'd be helpful for me to include.

Thanks,
Alaina

Sure. Its here:
I:\WIFIA\Program Management\Briefing Materials

If there is a better place for it, it can move.

Hi Karen,
Can I add a column for status to your table? Let me know where I can find the original.

Thanks,

Alaina

Hi Jorianne-
I put together the attached to provide you background about the dam and reservoir projects in the WIFIA pipeline and the eligibility of those types of projects.

Let me know if you need anything else.

Karen
