RE: EQT Gathering, LLC – Station C Compressor Station
NESHAP Subpart ZZZZ Initial Notification

Dear Ms. Bazyk:

EQT Gathering, LLC (EQT) owns and operates a natural gas compressor station located two miles northwest of 603-23 Canepatch in Wise, Wise County, Virginia. The Station C compressor station is currently regulated as an area source of Hazardous Air Pollutants (HAPs).

On October 19, 2010, EPA's most recent revisions to the Reciprocating Internal Combustion Engines (RICE) NESHAP at 40 CFR 63 Subpart ZZZZ (NESHAP ZZZZ) became effective. Based on a review of the finalized rule, initial notifications are required for existing stationary spark ignition RICE that are located at an area source of HAPs pursuant to §63.6645(a)(2). However, pursuant to §63.6645(a)(5), stationary RICE that are not subject to numerical emission standards are not required to submit an initial notification. EQT operates a stationary SI RICE at the Station C compressor station that is subject to initial notification requirements; therefore, attached please find the applicable information required for an initial notification pursuant 40 CFR §63.9(b).

If you have any questions or comments about the information presented in this initial notification, please do not hesitate to contact me at (606) 437-2272 or via email at josborne@eqt.com.

Sincerely,

EQT GATHERING, LLC

Jennifer Osborne

ATTACHMENT

NESHAP ZZZZ INITIAL NOTIFICATION

Initial Notification of Applicability

National Emission Standards for Hazardous Air Pollutants:

Stationary Reciprocating Internal Combustion Engines

40 CFR part 63, subpart ZZZZ

☒ Yes, I am subject to 40 CFR part 63, subpart ZZZZ National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines

NAICS code(s): *211111*

Compliance Date: ☒ Existing (before 6/12/2006) source: Oct 19, 2013

☐ New/reconstructed (on or after 6/12/2006) source: Upon initial startup

Note: The Oct 19, 2013 compliance date for existing sources applies to the following engine types:

- Existing stationary spark ignition (SI) RICE with a site rating of less than or equal to 500 brake HP located at a major source of HAP emissions
- Existing stationary SI RICE located at an area source of HAP emissions

Company name: *EQT Gathering, LLC*

Facility name (if different): *Station C Compressor Station*

Facility (physical location) address: *2 miles northwest of 603-23 Canepatch, Wise, Wise County, VA*

My facility is a (please choose one): ☐ Major source ☒ Area source

Owner name/title: *EQT Gathering, LLC*

Owner/company address: *PO Box 158, Pikeville, KY 41502*

Owner telephone number: *(606) 437-2272*

Owner email address (if available): *josborne@eqt.com*

If the Operator information is different from the Owner, please provide the following:

Operator name/title: ***Same as owner***

Operator telephone number: ***Same as owner***

Operator email address (if available): ***Same as owner***

Brief description of the stationary RICE at the facility, including number of engines and the site-rated HP of each engine:

- ***Compressor Engine #2 – Caterpillar Model G3512TALE***
  - ***4-stroke lean burn engine, 810 hp***

I hereby certify that the information presented herein is correct to the best of my knowledge.
