Hi Christy,
I looked back and it was definitely attached to the 7/21 email so I'm thinking it didn't go through because of some size restriction on either your end or mine. I'm trying to send you a zip file in a separate email… let me know if you get it.

Hi Sara –
Hope all is well and that your summer has been going well.
In looking back at my e-mails, I noticed that your e-mail to me on 7/26/2016 was part of an e-mail chain that originated on 7/21/2016 (see below) which referenced an example ANMP. I never received an e-mail from you on 7/21/2016 with an example ANMP. I looked at my clutter and junk folders (as well as trash folder, in case I accidentally deleted it) and did not see any e-mails from you on July 21st.
Would you forward the random example ANMP again so I can review (and share with Andrea)?
Thanks so much and my apologies for not catching this until recently.
Christy

Subject: Example ANMP
Hi Christy,
As promised, attached is a random example of a submitted ANMP under the current ECL. As discussed during our meeting, the ANMP Template, that will be required to be submitted under the new CWA permit, will include additional information and I will submit that draft ANMP Template to you shortly for your review. The attached is really just so you get an idea of what a ANMP will

generally look like.
