Subject:

phone transferred to Wardhill, MA office Haverhill

SUMMARY OF CONVERSATION

I called to determine whether the Hampstead facility had re-opened as planned. The secretary stated that they are hoping to begin re-opening in next couple of weeks. I left a message for Mr. McGowen to return my call.

Mr McGowen called back ~4pm. He stated the facility was just about finished + the offices would be moved back in ~ 10-14 days. The mfg. end would be moved in soon thereafter. He explained that they will be attending a training seminar this Friday in Nitt. (by Laidlaw) to learn about the new H.W. rules + ensure that they are prepared to run the new facility in complete compliance. I suggested he stop by to pick up a new copy of the rules before the training class.
