Hi Carol:

I'm scheduled to see Del tomorrow morning, so I'll be sending the AOC draft along after that. There will still be several provisions up in the air, but I'll transmit what I have so that you can review and pass on your comments, in case you want someone to move the discussions along in your absence. Alice estimates the past cost number to be approximately $130,000, but we're in the process of putting together the package that we would send to you to substantiate that. This includes the remainder of the contractor costs for developing the protocols that we hoped would break the impasse among the interested parties, so that a portion of the demand will be similar to what you received in the second demand letter earlier this year.

One more question relating to the Financial Assurance...do you have the most recent version of the Trust Agreement for the RI/FS? I thought that would be an appropriate attachment to the AOC, rather than the RI/FS AOC itself.

Pat
