SUBJECT: P&A at EPU-59-D Murphy Oil Poplar Mt.

SUMMARY OF COMMUNICATION

Asked Dean if they could send anybody out on Friday to witness a pressure test at a plugging job. We were skeptical that they could send anybody out so ~~early~~ short notice. We suggested that we ask Murphy to postpone pressure test, and to see if BLM could witness early next week, if not we could send the LOE contractor in Cut Bank out there.

2:30PM I called BLM Back and asked if they could send ~~someone~~ anybody out next week. Janie said she would check. later - She said yes. and for me to call Murphy and say that BLM would call them to set up time for early next week 6/23-27/86.

Called Murphy Oil at Poplar (406) 768-3612 and left message for them to wait a test for BLM to witness. Called Murphy at El Dorado Ark. and spoke to Sidney Campbell and explained to him we wanted BLM to witness pressure test. and if test failed we ~~would~~ would require additional work on the well. He said Ok and that he would call Poplar to discuss.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

TIME: Afternoon

SUBJECT: Plugging of EPU-59D Murphy Oil

SUMMARY OF COMMUNICATION

Ray Reedy of Murphy Oil called and asked about pressure testing a Bridge Plug set a 3,000+ feet with 5 sks. Reedy said that BLM understood that EPA required a pressure test of 750psi on plugging. ~~I~~ ~~had~~ Because I have only ~~read~~ heard of pressure testing while setting the casing and that it wasn't required in the permit, I said they didn't have to do a pressure test. I confirmed this with Deb Ehlert and Gus Stolz.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

Did not require Murphy to pressure test EPU-59D

Plugging of EPA-59D Murphy Oil

SUMMARY OF COMMUNICATION

Ray Reedy of Murphy Oil called and asked about pressure testing a plug set at 3,000 + feet with 5 lbs. Reedy said that BLM understood that EPA required a pressure test of 750 psi on plugging I had. Because I have only heard of pressure testing while setting the casing and that it would required with the paint I and I did not have to do a pressure test.
