Grants, N. M.
Feb. 17, 1960

Mr. W. E. Willingham - Topeka

The following information is supplied to support our sale of three junked jeeps and Ford 1½ ton truck to Mr. N. E. Dole.

All of the equipment sold is beyond repair unless we spent approximately $3,000.00 for new parts, and inasmuch as we do not need this equipment, we concluded to accept Mr. Dole's offer to buy it as is.

Jeep No. 2 has no engine, nor transmission. Jeep No. 3 has no wheels and the engine block is cracked. Jeep No. 4 needs a new engine, wheels and new body. However, Mr. Dole believes he can salvage parts of them, plus purchasing a new engine to make one jeep out of all of them.

The 1½ Ford truck needs a new engine and transmission plus a complete overhaul throughout.

Mr. W. E. Willingham:

To support our Voucher A-3081, dated Sept. 24, 1959, in favor of Henri E. Dole for $5,088.78, the following information is supplied:

Mr. Dole upgraded and delivered 420.63 tons of limestone ore to the Phillips Petroleum Mill during the month of July 1959, but settlement was not rec'd until Sept. 24, 1959 because of strike at Phillips Petroleum Company Mill.

The ore contained 2,005.43 lbs. of uranium oxide for which we received in payment $7,269.69, the base price of the ore was $7,019.01, plus a premium of $250.68. (See Phillips Liquidation No. 269-N). Our contract with Mr. Dole provides payment for 70% of $7,269.69, or $5,088.78, which represents the amount paid to him.

For your information our Company received $3,183.63 over and above the amount paid to Mr. Dole, after deducting $451.76 haulage payment to Wells Cargo Trucking Company.

- MEMORANDUM -

File: 159-28

M a y 22, 1959
Grants, New Mexico

Mr. W. E. Willingham:

The following information is supplied to support our reason for selling the Mack truck to Henri E. Dole for $2,500.00.

This truck was purchased from the Leonard Motor Company of Albuquerque on July 14, 1952. Its original cost was $12,473.82 and as of December 31, 1958, it had a depreciated value of $1,500.00 according to Mr. Willingham's figures.

The truck has served us well for almost seven years but it is just about ready to quit, unless we spend a couple thousand dollars to rebuild it. This truck, while still running, has reached the stage where it is constantly breaking down. In fact it spends more time in the shop being repaired than it does on the job. In addition, it needs nine new tires costing approximately $810.00.

This expense, plus the cost of maintaining the truck is not justified because we can rent a truck when needed, including the driver, cost of fuel, and maintenance for less than we can operate the Mack, when consideration is given to the expense of keeping it in operating condition.
