Subject: NGS Consultation
Date: Monday, August 05, 2013 9:55:00 AM

Hi, Linus,

I wanted to get back to you on the GRIC request for consultation on NGS. The Regional Administrator would prefer to have consultation after EPA has had the chance to review and evaluate the alternative submitted by the Technical Working Group. We need the month of August to do that work, so consultation in August seems unlikely. I will get back to you and other members of the Technical Working Group on our progress. We can discuss additional consultation at that time. Please let me know if you have questions.
