Subject: Follow-up, Inhance Technologies/EPA Meeting
Attachments: Inhance Technologies Aug 5, 2021 Slides - Redacted.pdf

Good evening, all.

Thank you again for meeting with the Inhance Technologies team last month to discuss questions surrounding PFAS, pesticides, and fluorinated barrier packaging technology. We appreciate being able to share our knowledge and understandings with EPA on this timely subject.

In anticipation of the upcoming follow-up meeting among Kimberly Nesci, Jeff Dawson, Prakash Iyer and William Farland, we are providing copies of the slides presented at the August 5 meeting for your reference. Please note that confidential business information has been redacted from this copy of the slides. Information subject to CBI claims will be submitted to the EPA CBI team under separate cover.

Per our discussion on August 5, we also plan to provide constructive comments regarding PFAS in pesticide packaging information currently available on the EPA website. We expect to be able to share these comments in the coming weeks.

Should you have any trouble accessing the attached information or any further questions for our team, please do not hesitate to reach out. We look forward to continuing this important dialogue with EPA.

Best regards,

Dottie Watson
