Ms. Regina A. McCarthy, EPA Adm.

I am deeply concerned about the Bridgeton Landfill - toxic dump. I live 1½ miles away & have for 40 yrs.

You have the position and power to effect the change we need. EPA needs to give the Army Corp of Engineers to clean this up safely. A clinic for those suffering health (N29) conditions to be helped and monitored for life time.

I (we) expect Action Now not months or years down the line.

Thank you
May God guide your actions,
