Subject: Re: FS Comments - West Lake Landfill

Dave,

The comments on the risk assessment (Appendix F) you attached below are pretty superficial and consist mostly of wordsmithing changes. Should I infer from this that the risk assessors who reviewed Appendix F did not find any substantive concerns with the assumptions, calculations, receptors, etc in this risk assessment, and therefore they believe the risk assessment is an accurate assessment of the risks posed by the remedial alternatives?

I will let you know what time interval of the upcoming meeting we'll be discussing these comments. At this point, the meeting agenda is not finalized. I hope to keep this meeting focused on fundamental technical issues with the draft SFS report rather than going through every comment generated by each stakeholder.

Sincerely,
Daniel R. Gravatt, PG

Subject: FS Comments - West Lake Landfill

Good morning Dan.

Attached are our comments on the Draft Feasibility Study Report for the West Lake Landfill. Personnel from Professional Environmental Engineers who reviewed the document and provided the comments will be available for the September 22 meeting to discuss the comments via teleconference. As we discussed, if you can let us know the approximate time that our comments will be discussed, we would participate in the conference only during the time that our comments were discussed. If you have any questions, please contact me. Thanks.
